EXAMINER'S AMENDMENT

1. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Mr. Matthew Schmidt on 6/24/04.

The application has been amended as follows:

In the Claims:

- Claim 1, line 5, "a vehicle fuel filler pipe" has been corrected to -- **the** vehicle fuel filler pipe -- since it was already introduced on line 3.
- Claims 25-33 has been canceled without prejudice for being drawn to at least one non-elected embodiment relating to fuel flow control device with particular features drawn to a diffuser.

2. The following is an examiner's statement of reasons for allowance: the prior art does not show or render obvious the claims drawn to the elected embodiment(s), particularly to a fuel flow control device having a fill tube that includes an outlet end being responsive to the level of **liquid fuel** in the fuel tank so that the outlet end remains in the area of the surface level of liquid fuel in the fuel tank.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably

accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
